Private Jet Pricing

Data as of 28 Nov 2026

Empty leg flights carry fixed prices, per seat or for the whole aircraft, and the history of every listed price is below, by departure city. A charter on your own date: one all-inclusive quote, no hidden fees.

Three Ways to Fly, Three Kinds of Price

Charter on your own date

From $2,400 one way

You rent the whole aircraft for your route, date and schedule. The price depends on the aircraft class and the flight time: see the prices by class below. One all-inclusive quote for your date arrives within 15 minutes.

Empty leg, whole aircraft

From $1,555

A repositioning flight on a date and route set by the operator, sold as the whole aircraft at the price the operator lists. Live flights and prices are rechecked every 10 minutes.

Empty leg, by the seat

From $540 per seat

Some empty legs are sold seat by seat. The price per seat is shown on the flight; each route page lists the live flights and the prices of recent listings.

Private Jet Prices by Aircraft Class

Whole aircraft, one way: the lowest price per class on our routes, by flight time. Prices from 1,679 routes.
